

William Lo Channiko

APPLIED AI ENGINEER

Jakarta, Indonesia | +62 813 4852 0623 | williamlochanniko4@gmail.com
[linkedin.com/in/william-lo-channiko](https://www.linkedin.com/in/william-lo-channiko) | github.com/williamlo90

Applied AI engineer with 1 year of full-time software engineering internship experience across two terms. Built end-to-end Python/FastAPI and TypeScript/React systems spanning RAG, structured extraction, human-in-the-loop workflows, offline evaluation, and IndoBERT fine-tuning.

TECHNICAL SKILLS

Core engineering: Python, TypeScript, SQL; FastAPI, Next.js, React; PostgreSQL, REST APIs, Docker, Git, GitHub Actions, CI/CD

Applied AI: OpenAI API, LangGraph, RAG, embeddings, pgvector, structured outputs, Mistral OCR, offline evaluation, human-in-the-loop workflows

ML/NLP and testing: PyTorch, Hugging Face Transformers, scikit-learn, IndoBERT, Optuna; Pytest, Vitest, Playwright; Kotlin, PHP/CodeIgniter, SQLite

SELECTED AI PROJECTS

Case Resolution Copilot | [GitHub Repository](#) *Jul 2026-Present*

- Built and deployed a policy-governed, multi-role decision workspace for complex support cases with Next.js, FastAPI, PostgreSQL/pgvector, LangGraph, Clerk, and OpenAI; grounded Decision Briefs in versioned policy and case evidence while keeping approvals and action authority server-controlled.
- Verified 54 acceptance controls across 71 baseline variants and 19 traceable proofs across 8 workflow scenarios; passing checks covered stale-approval invalidation, role denial, replay protection, and unknown-outcome reconciliation, while external integrations remain deterministic simulators.

Invoice Review | [GitHub Repository](#) *Jul-Aug 2026*

- Built an AI-powered invoice review and approval workflow with React, FastAPI, Mistral OCR, and OpenAI structured outputs; added deterministic validation, reviewer corrections, audit history, and idempotent export.
- Achieved 98.75% exact field match (79/80), 100% validation-code exact match, and 100% approval-blocker match on a sealed 10-invoice synthetic holdout; kept export approval-gated and idempotent through a mock accounting/ERP adapter.

PROFESSIONAL EXPERIENCE

PT Dover Chemical

Software Engineer Intern (Mobile and Full-Stack) | Jakarta, Indonesia *Jan 2025-Jan 2026*

- Built offline-first Draft Sales Order workflows for the CRM Dover Chemical Android app, enabling field-sales users to create and retain orders without connectivity; integrated 38 HTTP API operations, 15 Room entities/DAOs, and WorkManager synchronization for records, attachments, retries, and cleanup.
- Built a Customer Management System for a 6,656-record customer master dataset across 15 data domains, including CRUD/search, validated Excel imports, reporting, audit logs, and role-gated approval, rejection, and reopen paths.

EDUCATION

Multimedia Nusantara University, Tangerang, Indonesia 2022-2026

Bachelor's Degree in Informatics (S.Kom.) | Graduated with Distinction | GPA: 3.82/4.00

Thesis: Fine-tuned two IndoBERT classifiers on 1,822 Indonesian social-media opinions; achieved test macro-F1 of 0.981 for sentiment and 0.870 for aspect classification, with inter-annotator Cohen's kappa of 0.954 and 0.900 on a 200-opinion reliability sample.

Honors: Academic Achievement Scholarship, 2024

CERTIFICATIONS

- Machine Learning Specialization - DeepLearning.AI, Apr 2025
- Machine Learning A-Z: AI, Python & R - Udemy, Mar 2025
- Google Data Analytics Professional Certificate, Mar 2025
- SQL for Data Science - University of California, Nov 2024
- Data Wrangling, Analysis and A/B Testing with SQL - University of California, Nov 2024
